Australian Statesman Sees Identical Interests in Pacific With U.S.

London, Nov. 4 (By A. P.)
Those who sat at the luncheon of the American chamber of commerce in London today showed curious surprise when Australia's youthful and virile premier, Stanley M. Bruce, declared with vehemence that the British crown and government had been wholly wrong in the struggle against the American colonies. They gasped when he declared that Australia would have fought alongside the American colonial troops, if it had been a nation of the British conditions, however, by saying that Australia now enjoyed full liberty as a nation of the British commonwealth because of the York.

The attitude of the electors on the question of prohibition is given chief attention by some of the newspapers, which describe the balloting as a "wet victory," and "resentment against prohibition."

Editorial comment is scant. The Daily Chronicle, noting the "wet tendency" in some States, says it tendency" in some States, says it (Republican), today telegraphed defeated in the summer primary. Witches Being Sought In German Community

Leipzig, Germany, Nov. 4 (By 1. P.) .- Belief in witchcraft and sorcery still persists in some parts of rural Germany. A wave of the old superstition has been sweeping the little hamlet of Wrescherode, near Gauersheim, and while there have been no burnings at the stake, life has been made miserable for several unfortunate suspects, both

men and women. An automobile was wrecked near the house of a supposed witch, and it was excitedly charged that the witch had caused the accident by expectorating on the roadway just before the car passed. When a young girl was taken ill it was averred she had been bewitched and she was shut in a dark room for three days while incantations were chanted periodically to exorcise the evil spirits. Outside the house door armed men stationed themselves with the hope of catching the evil ones, but it is not recorded that any

1 musical sensation that has swept the country...

The New Orthophonic Victor Record

For more than two years, Victor experimented to produce the record which is now sweeping the country. While this improved record has been available for some months, we did not want to present it formally to the public until it had definitely proved its worth as the finest record made.

Two weeks ago we announced the new Orthophonic Record. Already millions of musiclovers have been thrilled by the music of this new and wonderful type of Victor Recorda record unequaled in clarity, tone, and fidelity to the original.

Here at last is a record as good as the Orthophonic Victrola. There is nothing with which to compare it, except the singing or playing of the artists themselves.

Close your eyes and you cannot believe that you are listening to a reproducing instrument playing a record. It is just as much the actual artist as though he or she were in the room with you. For the tone of these amazing records is the tone of naturalness - round, full, true, not pinched and not too loud.

Microphone recording-Orthophonic-Artists now sing or play in natural position before a microphone, just as they sing or play at a public performance. The microphone "hears" and records what you would hear were you there.

Unpleasant scratch eliminated-Made from a new improved material, Orthophonic Records have eliminated those annoying surface-noises so common to the ordinary type of record. You hear the music and nothing else. Also, these records have longer life.

That elusive "third dimension"-Victor has captured what a great musician calls the "third dimension"-depth! Just as the great masters gave "relief" and depth to their paintings, so these new records give depth and roundness of tone to reproduced music.

Foremost artists in every class-Victor has always attracted the foremost singers and instrumentalists of the world-operatic-orchestral-popular and dance. Their confidence is more than ever justified by the lifelike fidelity of Victor's new Orthophonic recordings.

Record stops automatically-An exclusive feature of the Orthophonic Victor Record is a groove, cut "off center." When the music has finished playing, the needle swings into this groove and applies the automatic stop on all modern Victrolas.

Hearing is believing-Whether you own an Orthophonic Victrola or not, hear these new Victor Records. They play on any instrument - and vastly improve its playing quality.

Go to your nearest Victor dealer. Go expecting the musical thrill of a lifetime. You will not be disappointed.

JUDGE ENGLISH RESIGNS.

The resignation of Federal Judge George W. English, of the Eastern district of Illinois, was accepted by the President yesterday after consultation with the House managers of the impeachment proceedings and with the Attorney General. The Senate last summer voted to meet on November 10 as a court of impeachment to deal with the case of Judge English.

While the resignation of Judge English disposes of the possible question of his removal upon conviction in impeachment proceedings, there remains the question of "disqualification to hold any office of honor, trust, or profit under the United States." This penalty is usually included in a judgment of conviction. Can a Federal officer, by resigning before his trial on impeachment, forestall the possible judgment of the Senate disqualifying him from holding office?

The case of Secretary of War Belknap is cited as a precedent. The House on March 3, 1876, voted to impeach him, and he resigned the next month. The Senate, however, went ahead with the case and took testimony, and on August 1, 1876, a vote was taken and Belknap was acquitted. Many senators, in announcing their vote of not guilty, stated that they did so because in their opinion the Senate no longer had jurisdiction over the matter, Belknap having resigned.

The Senate must meet on November 10 in accordance with its resolution when it adjourned in June. Whether or not it will take testimony in the English case, or drop it in view of his resignation, is a question that remains to be determined. Apparently the House managers have no authority to stop the prosecution, since their last instructions from the House were to proceed with the case. The Senate, however, may terminate the proceedings by an immediate vote if it feels that Judge English's resignation has settled the question at issue.

A COMMUNITY CHEST,

The special committee appointed by the District commissioners a little over a year ago to study the community chest method of raising funds for all local charities reported that Washington was not ready for the plan at that time because of the fact that most charitable organizations did not know enough about it. It was recommended further that all concerned make a thorough study of the scheme so that if it were presented at a later date it could be passed on intelligently. With this in view, the board of managers of the Citizens Relief association has adopted a resolution providing for a committee of two board members to meet with representatives of anyorganization taking similar action, to study the question of establishing a community

Proponents of this modern method of providing funds for charity feel that the first gun has been fired looking toward its eventual adoption. So sound and logical is the idea that it would seem that thorough knowledge of all phases of it, together with consideration of its success in other cities, would assure its adoption. Essentially it contemplates one single drive for funds each year, for and in the name of all organizations conducting individual drives during the twelve months. board is provided to study the needs of the individual charities, and allot to each a proper proportion of the amount raised. A quota is set approximately equal to the total requiremeht and in most cases the canvassers have been able to raise a sum sufficient to guarantee to each charity as much, or in some cases more, money than they had been accustomed to raise in their individual drive

The result has been beneficial to both the public and the organizations. The individual is spared the annoyance of frequent demands for funds for this, that and the other charity, and is enabled to adapt the size of his total contribution to his income. He may make the remittance immediately, or spread it out over a twelve months' period. The head of the charity has the financial bugbear removed from his mind and is assured a fixed income with which to work throughout the year. He is also relieved of the necessity of conducting an annual drive and is able to devote his entire attention to administration of his office. By obviating the expense of a number of in dividual drives an economy is effected which reacts to the benefit of both the giver and

prospective committee for its study will be formed without undue delay.

INCOME TAXES.

Since the ratification of the sixteenth amendment to the Constitution, in 1913, giving Congress the power to levy taxes on incomes, individual net incomes returned for taxation purposes have increased from \$3,900,-000,000 in 1913 to \$25,700,000,000 in 1924.

The number of individual income tax returns was only about 437,000 up to 1916. The highest number of returns was in 1923, numbering 7.698,321, declining to 7,369,788 in

Individuals have paid the government more than \$6,419,890,000 in income taxes since 1913, while corporations have paid more than \$12,717,000,000 in income and profits taxes Total income taxes paid by individuals and corporations amount to more than \$19,000,-000,000 since the first year of the operation of the income tax.

Before the world war internal revenue receipts constituted about four-fifths of the ordinary Treasury receipts. During the war they constituted about nine-tenths of the ordinary receipts. In 1924 they constituted about five-sixths. The proportion of internal revenue receipts to the total receipts is slowly declining, because of the reduction of direct taxes and the increase of customs receipts.

Apparently it will be a long time before th system of income taxes will be abolished. While ordinary annual expenditures of the government remain at the level of about \$2,500,000,000, including sinking fund, it will be necessary to impose income taxes.

THE Y. M. C. A.

One of the most influential and beneficial organizations in the community is the Y. M. C. A. Working with young men and boys, it provides nonsectarian guidance along four lines-intellectual, religious, physical and social. The work of the Washington Y. M. C. A. has long since proved its value to the community. While largely self-supporting, the local association finds itself unable to meet the annual budget, so to meet this need and to provide for needed repairs to the buildings, a week's campaign will be undertaken on November 10 to raise by public subscription the sum of \$50,000.

To the general public the outstanding service of the "Y" seems to be the dormitory it provides for young men of high ideals and character, yet whose pocketbooks are slim. There are, of course, the gymnasium and the pool, with instruction in calisthenics and swimming. A library and reading rooms are also provided. Certainly if this provision for young men were the only service the association offered the community, it would be worth while

When one considers, however, that similar work is carried on in behalf of high school and younger boys, providing training along the same four lines at so small cost as to be practically gratuitous, the word "service" takes on a larger meaning. So-called Hi-Y clubs are maintained in each of the high schools, for which meeting rooms are provided in the Y. M. C. A. building. Church groups are organized throughout the city for younger boys. Use of the swimming pool and the gymnasium, under competent supervision, provides a safety valve for youthful exuberance.

Each unit of the Y. M. C. A. is a self-suporting, self-governing body. The work of the Washington association will have to be curtailed considerably unless the public gives its full support. The work is so necessary and valuable to the community that the sum required ought to be raised without difficulty.

PROBLEMS OF EMIGRATION.

One of the perplexing but important subjects which will come before the imperial conference now sitting in London is the failure of the Empire Settlement act of 1922, and the ways and means to be adopted to turn it into a success. In that year parliament authorized an expenditure of £10,500,000 for 1922-1926 for the purpose of aiding emigration from Britain to the overseas dominion and colonies. A double gain, it was thought would be thus secured, namely, the relief of congested and to a certain extent unemployed population in the mother country, and the accession of much needed settlers to the foreign possessions. The act, however, has not been availed of in accordance with expecta tions, and a total of only £1,384,000 of the appropriation has been actually expended. British migration to the whole of the empire overseas fell from 223,521 in 1913 to 62,886 in 1925. To Canada it fell from 164.566 to

24,723, to Australia, from 44,428 to 27,269. This extraordinary failure to move to other parts of the empire seems almost unaccount able in view of an increase in the population of Great Britain of 2,481,000 between 1913 and 1925 and in view further of the restric tions on alien immigration into the United States. It is still further accentuated by the fact that the average yearly increase of popu lation in Canada fell from 374,678 in 1912. 1913 to an average increase of only 141,350 in 1923-1925, and the average increase in Australia fell from 148,992 in 1911-1912 to

129.711 in 1923-1925. Unless a way is found to make the act of 1922 operative, a dismal prospect faces both Britain and the colonies. In the way of its successful working there are certain obstacles, which have been pointed out in considerable detail to the secretary of state for the dominions by a committee of unionist members of parliament representing crowded in dustrial districts in the north of England. This committee pins its faith to the imperial conference to find a way to make state-aided emi gration on a large scale a reality and not the flasco that it has hitherto been.

funds, however, that it is to be hoped the but which also can be worn as part of the regulation uniform for standing watch and other duties aboard ship. The new coat is black, of double texture waterproof material of cravenette type, with a half belt in the back, made on the lines of a civilian raincoat.

Probably the new raincoat has enough points of superiority over the old to make its adoption advisable. By no stretch of the imagination, however, can it be considered as picturesque nor will it carry with it the same delightful and characteristic odor as the old-time oilskins.

The truth of the matter is that the gobs have won the first leg in their fight for off-duty togs. With the first victory behind, they announce a continuance of the campaign for shore-leave uniforms, consisting of a yachting cap, doublebreasted coats and straight-legged trousers of blue, similar to those of petty officers, but with black bone buttons and without gilt ornamentation. From a personal standpoint Jack probably has a right to the new outfit. He should remember his duty to the public, however, for the little round white hat or the pancake flat hat, the blouse and scarf and bellbottom trousers furnish the only contact with the sea to those having the misfortune to dwell inland.

ATTENTION, MR. JARDINE:

The Department of Agriculture announces the production of a new "cream." With the foreknowledge that the Department of Agriculture has jurisdiction over the enforcement of the pure food law, the prime object of which is to prevent the misbranding of food products, it is strange that Mr. Jardine's department should lend itself to the dissemination of information designed to make the public believe that cream can be, and has been, with the full knowledge and connivance of that department, manufactured from sugar cane.

The department maintains a considerable force of employes for the sole purpose of preventing the sale as butter of fat compounds not the product of the dairy. How then can the Secretary connive at the manufacture and sale of a product of the cane fields of Louisiana as "cane cream?" Yet in "Release-Immediate 293-27," under date November 3, the department reports that the "new product called cane cream has been originated as a result of experiments by the bureau of chemistry" and that already a thousand cases have been made by a Louisiana sugar factory.

We already have chocolate cream, facial cream, shaving cream, cream of rice and cream of wheat, to say nothing of cream of tartar. ice cream soda, and many another food and toilet preparation which, like the skim milk of Little Buttercup, "masquerades as cream;" but in view of the fact that the weekly grist from the mimeograph of the Federal Trade Commission announces the issuance of orders to manufacturers and dealers to "cease and desist" from the practice of misrepresenting synthetic products as natural, rayon as silk for instance, it would seem that if the commission has any time to spare it should quietly. but firmly, call down the Secretary of Agriculture and in a fatherly way point out to him the indelicacy, to say the least, of officially countenancing the distributation and sale of an article with the flavor of the dairy in its name, but with no other bovine relationship whatever. As an alternative the commission should insist that the labels on the containers of the new product shall clearly set forth that the cream content of the concoction is absolutely nil. Sauce for the goose is sauce for the gander.

THE NEW NIAGARA BRIDGE.

Another link in the friendly chain which connects the United States with the Dominion of Canada will be formally dedicated on the sixtieth anniversary of the day on which Albert Edward, Prince of Wales, afterward King Edward VII, dedicated the bridge which unites the Dominion with the republic at Montreal That was on the birthday anniversary of Queen Victoria, May 24, 1867. On the recurrence of that anniversary next May the latest highway bridge between the two countries will be thrown open to traffic with appropriate let her go ahead. ceremonies

The new bridge has so far progressed toward completion that the piers have already been joined by the girders. The work of construction has been carried on in record time. It was on October 6, 1925, that the formal authority was granted by the commission. In thirteen months the seven piers have been completed and the spans, which are 1,900 feet in length, have all been placed. proaches are being rapidly pushed and by the day specified for the dedication the entire work will be completed.

The roadway over the structure, which is for vehicular traffic exclusively, is 56 feet wide. and it is estimated that 6,000 automobiles can pass over the bridge every hour. That the new thoroughfare across the Niagara river will be a most popular route for tourists seems certain, as it will afford motorists the opportunity to drive along both banks of the Niagara from the foot of Lake Erle to Niagara Falls and to cross over at either end of the American or the Canadian boulevard from one country to the other.

The people of Buffalo and their neighbors across the border have been trying to secure a highway bridge at the head of the Niagara for more than 50 years. The final decision of the War Department to abandon Fort Porter as a military post and to permit title to the land to revert to the State of New York made this possible at last. Fort Porter will be transformed into a city park, with the approaches to the bridge formed from one end of the reservation.

PREFER THE CITY.

The hopelessness of efforts to induce people to move from the crowded cities to the serenity and beauty of the country, according to the Lincoln Journal, was brought home to a Londoner who was asked for a copper by a hobbling old man. When he was asked why he did not live in the country, where he was seacts to the benefit of both the giver and the organization, the result being that a far greater proportion of the funds raised go to actual charity than under the individual drive system.

Vancouver in Quandary.

Vancouver, B. C., Nov. 4 (By A. P.).—Plans to entertain Queen Marle of Roumania in Vancouver tomorrow, remained unaccepted today by officials in charge of her Western tour. Mayor L. D. Taylor repeatedly tried to gain approval from Samuel Hill, director of the Queen's Pacific northwest itinerary, but received no reply. Those in charge of entertainment here considered canceling an official luncheses.

WIVES OF TOMORROW SMART SMOCK

A PPARENTLY many wives to-day are dallying with the dangerous idea that a great love is worth a great sacrifice— even the sacrifice of husband, home what I am talking about. I

answer to Myrtle with the soul mate was wonderful and should undoubtedly bring Myrtle and other bewildered women to their senses. I should be glad, as a middle-aged wife and mother, if I might add a word. I believe thoroughly that great loves enter into human lives and one of the greatest and a phase of the divine emotion sadly rare is that described by Myrtle in speaking of her husband.

She tells of a noble man who

She tells of a noble man who loves her truly and has worked and built up an ideal home for his fam-ily. Admittedly the man has been devoted husband and father for eighteen years! A thousand times rather would I have a mill stone around my neck and be cast into the sea than to be the one to shatr the ideals of such a man and

Moreover Myrtle needs a strong word of warning. Such natures as her husband possesses are not to be trifled with and it would be by guess that this husband is not so blind as some people appear to imagine. He is more probably do-ing some watchful waiting and Myrtle would do well to be using "Goodness—don't I do anything new? Haven't I any new ideas in vamping?"

He smilingly shook his head. "There aren't any new ideas in courtship. They've all been used."

A taxicab drew up at the curb. "There's Audrey," said Marcie, warningly.

who play hard and rest wherever the spirit moves them—on myrtle would do well to be using whatever skill she possesses to prove to her husband that he is the cuntry of plain fabric, and the blooms—one of her thought. Otherwise she is liable to find herself an outcast, despised by those who formerly loved her. As for the wonderful lover who sympathizes so deeply with er who sympathizes so deeply with his own child, but seems so ready to

Beauty and You

KEEPING THE LIPS SMOOTH.

you ever notice how much D the lips have to do with the expression and youth of the face? A child's mouth, you know, is sweet because it is soft and smooth. These qualities and that rosy transparency of youth can be kept for a long time, with a little care, and are much to be desired. A wrinkled mouth adds years to the face. To avoid lines it is first of all important to cultivate a re-laxed position of the lips. This does not mean that they should be loose, but rather that they should

be habitually free from tension.

At night, just before going to bed, it is well to rub a little cream on the lips. My preference is for a little camphor or menthol salve; vaseline is also good. Something of this sort may also be put on from time to time during the day if the lips are inclined to be chapped, hard or dry. It is worth while to experiment

By NORMA TALMADGE

Most of the naturally clear complexions you see today are due to it ... what to do

THERE are both proved ways and unproved ways in skin care. The wise woman chooses the proved way. A good complexion is too priceless for experiment.

The simple rule below is one any girl or woman owes herself to try. More beautiful complexions are credited to it than to any other method known. Its results are seen

on every side.
Follow it if only for one week. It is nature's proved way to skin clear-ness and to Youth safeguarded. Leading skin specialists urge it widelycorrect skin cleansing with the soothing olive and palm lather of Palmolive, in this way:

treatment given above. Do not think any green soap, or represented as of palm and olive oils, is the same as Palmolive.

Remember that before Palmolive came, women were told, "use no soap on your faces." Soaps then were judged too harsh. Palmolive is RESULTS

Wash your face gently with soothing Palmolive Soap, massaging it softly into the skin. Rinse thoroughly first with warm water, then with cold. If your skin is inclined to be dry, apply a touch of good cold cream—that is all.

Do this regularly, and particularly in the evening. Use powder and rouge if you wish. But never leave them on over night. They clog the pores, often enlarge them. Blackheads and disfigurements often follow. They must be washed away.

Follow these rules day in and day out. Your skin will be soft and lovely—naturally colorful and clear.

Remember that before Palmolive came, women were told, "use no soap on your faces." Soaps then were judged too harsh. Palmolive is a beauty soap made for one purpose only: to safeguard your complexion. 60 years of soap study stand behind it. Millions of pretty skind behind it. Millions

Polly thinks the jersey dress is very smart, but Mitzi makes the mistake of showing her this frock which is also of jersey, but jersey in two shades. The collar is so smart and the bands of trimming are so effective that Polly can't decide between them.

Perhaps after all a suit would be even marter-worn with an all-enveloping topcoat. This suit is of Scotch tweed trimmed with a shawl collar of fox and two-piece suits, as every one knows, are exceedingly fashionable this season. Polly can't decide.

Shipping shares reflected advances in ocean freight rates, while copper shares were firmer in response to expectations of larger dividends before the end of the year. Many oil stocks were in good demand on the belief that overproduction in the industry had been checked. Sugar stocks were strong through-out the session and were substan-tially higher at the close.

Some unsettlement was caused by renewed pressure against several motor stocks, resulting in the decline of Mack Trucks to a new low level for the year, but for the part, support was sufficient to

prevent severe breaks.

Texas Gulf Sulphur, Allied Chemical, U. S. Cast Iron Pipe, Warner Pictures A, Eureka Vacuum Cleaner and International Paper were all strong in the final hour, closing from 2 to 3½ points bigher.

REACTIONARY TENDENCY

New Belgian 7s Yield Leadership; Some Rails Conspicuously Strong.

TRACTIONS LOSE GAINS

New York, Nov. 4 (By the Associated Press).—The bond market today gave signs of tiring after the recent advance which carried prices to the highest levels of the

prices to the highest levels of the year. The advance, which was especially marked in the foreign group, finally invited sufficient profit-taking to cause fractional recessions in many of the leaders, but only after some of them had reached new peaks.

After a remarkable rise of more than 4 points above last week's offering price, the new Belgian 7 per cent bonds yielded first place in trading interest to the government's 6s, which shot forward to a new top price above 90. Meanwhile the 7s fell back fractionally and losses running up to a point and losses running up to a point or more were registered by some of the French railroad and munici-pal issues, as well as German industrials.

UNITED STATES GOVERNMENT WAR LOANS.

Sale Guotations in dollars and Sale State of Control of Contro Several railroad liens were conspicuously strong, although general investment buying of these issues was on a smaller scale. Delaware & Hudson convertible 5s followed an unturn in the road's shares, based on the large business being done by the coal-carrying lines, and ac-tive bidding developed for Chicago & Eastern Illinois 5s and Denver & Rio Grande Western 5s, both of which sold at the year's best fig-

ures.
Local traction bonds, which have been favored because of their have been favored because of their speculative possibilities, again started higher, but like many other issues, forfeited some of their gains when realizing sales appeared. Consolidated Coal 5s, Cuban Dominican Sugar 7½s and Trumbull Steel 6s were strong.

A \$2.500.000 loan for the Protes-A \$2,500,000 loan for the Protestant Church institutions of Germany was oversubscribed today and bankers were reported to be preparing bids for other pieces of foreign financing, including a foreign financing, including a \$5,000,000 bond issue for the city of Montevideo.

CURB MARKET REVIEW.

CURB MARKET REVIEW.

New York, Nov. 4 (By the Associated Press).—Stock prices gathered strength after an early period of irregularity in today's curb market. Buying orders were distributed over a fairly broad list, with pool operations apparent in several issues in which special developments are reported to be pending.

Revival of activity and strength in Consolidated Laundries, which crossed 24 to a new high on the current upswing on reports of large current earnings, featured the industrial list. New peak prices also were recorded by American Seating, Banc Italy Corporation, Continental Tobacco, Inc., General Electric of Germany trust receipts and Philip Morris. Pender Groceries A touched a new low at 42.

Warner Pictures railied from 32½ to 574, closing at the top for a net gain of 2½ points. Coal shares were firm on reports of an increased domestic demand for the product. Active motor and baking shares showed little change in the prices failed to cause any selling of the prices failed to the discovery of a new well proving up additional acreage.

The public utility shares displayed a firm undertone, The new United Gas Improvement stock touched a new high at 86½.

Bonds were again active with a jump of over 2 points in Nevada Copper 5s of 1941 and a drop of over 5 points in Stutz Motor 7½s as the contrasting features.

NEW YORK, Nov. 5 (By A P.).
Opening of the annual "Big
Three" series Saturday when
Harvard and Princeton meet, serves

to bewilder the experts. In many

quarters form is being discounted and a line sought on the likely smiles of the goddess of luck. Harvard starting with unimpres-sive performances, is expected to

show greater improvement when arrayed against Princeton. The Tiger also opened the season with-out arousing enthusiasm and has

failed thus far to display the exected recuperative ability

the year. If Slagle can go in and remain in the game throughout he will prove a threat Harvard cannot

Futurity

Whitney Has Strong Hand With Four Named to Start.

TWENTY-FOUR 2-year-old colts and fillies, the very finest of the division in training, have been named overnight for the sixth running of the Pimlico futurity of a mile today, the greatest classic of Pimlico's fall meeting and one of the very most highly prized juvenile classics of the American turf.

Though lacking much of the tredition

tradition associated with such long-established blue ribbon events as the Belmont futurity, the Hope-ful and other fixtures of lesser lus-ter since its inauguration in 1921, Pimlico's futurity has long since found its place in the racing sun. It is one of the very richest of 2-year-old events, as it carries \$40,000 added in money value and an additional \$5,000 in case the winner be bred and foaled in Maryland.

Of the two dozen named overnight no less then this teem will need to be added in the state of the control of the two dozen named overnight no less then this teem will need to be a state of the stat

night no less than thirteen will represent five of the multimillionaire stables. So far as numbers go Harry Payne Whitney holds the strong hand, for he has no less than four representatives—the filly Maid of the Mist and the coltr. Velorative ur representatives—the hist and the colts, Valorous, the Mist and Whiskery. The Bostonian and Whiskery. The Whitney entry should be favorite, as all four are capable performers, and Valorous seems particular cut out as a weight carrier over a route.

Mrs. Payne Whitney's Greentree establishment will be represented in Saxon and Adios. If the track is fast both of E. R. Bradley's Buddy Bauer and Be With Us will accept the issue; neither is a mudder. The Sagamore Stable (Mrs. E. Baker) has named Gold Coin and Lord Chaucer, the latter which as a rank outsider won the Hopeful at Saratoga.

veteran trainer, Jimmy Rowe, who has the Whitney horses on razor edge, is particularly anx ious to score in the Pimlico Futurity this time, as victory would practically assure him a world's record for winnings in a single year. Vic tory would swell the Whitney earnings for 1926 to within a few thousands of dollars of the Amer-

C. U. HOLDING G. W.-URSINUS TO ATTRACT BLUE RIDGE LIGHTLY NOTABLES

Jack Stack, a promising youngster, will take over the quarterback job tomorrow in place of the varsity star, Ray Foley. Bill Carney will also move up with the substitutes, taking a backfield position, and will do the punting.

Unless Blue Ridge presents a strong argument, none of the varsity men is expected to enter the game.

THE Catholic university regulars will take a day off tomorrow when the Blue Ridge lars will take a day off tomorrow when the Blue Ridge college eleven comes to Brookland stadium to do battle. Coach Jack McAuliffe is saving the Cardinal varsity men for the Holy Cross and found his charges in excellent condition, with the exception of Tierney and Lafond, who were injured in the Loyola clash last week-end. Neither of this pair will see action until the middle of next week, judging from their present condition, and McAuliffe wants to assure their presence in the Holy Cross game by resting them as long as possible.

Strengthen Defense In the final hard practice before the game tomorrow with American university's eleven at Kendall Green the Gallaudet gridders yesterday went back to the fundamental dummy tackling and blocking. Coach Hughes resorted to this in an effort to correct the defensive faults of his players. Dyer, a drop-kicker, and Byouk, the team's best forward passer, al'n went through special drills in their arts, while the remainder of the squad polished up signal work. Bliger, substitute center, whose foot was infected, is expected to don his uniform for tomorrow's clash and he will see action for half of the game, according to Coach Hughes' present plans, alternating with Ridings.

closing of the stake, while the Merchants handicap was for 3-year-olds and upward at 11-16 miles. The former brought out a field of fourteen starters, and Max Hirsch saddled the winner and second horse in Social Mug and Flippant. S. O'Donnell had the mount on Social Mug, while Fields was astride Flippant. The race was marked by keen speculation, and Painted Lady was always a slight choice. The Jeffords filly showed a good turn of speed in the early stages and set a fast pace, with the Idle Hour Farm's Bit o' Love in close pursuit. Rounding the far turn, Abel sent the Whitney filly, Overture, up on the outside and at the top of the stretch was on even terms with the leader.

leader.

At the furlong pole, O'Donnell squeezed through next the inside rail with Social Mug and at the sixteenth pole took command to lead the remainder of the trip. At the end he was half a length in front of Flippant, who closed with a rush on the outside, and passing the tiring Overture, beat her out a length and a half. Painted Lady was fourth, another head away. The Helpful had a net value of \$3,360 to the winner.

A rousing finish came with the running of the Merchants handicap when Lieutenant II, under a million dollar ride by Henry Church, just managed to last long enough to beat Big Blaze a nose.

The winner made all of his own pace with Sande trailing him with Big Blaze. At the top of the stretch Big Blaze moved up with a determined challenge, but after getting on almost equal terms with the leader, he hung. Blondin was third, heaten a length for the place. The Whitney racer, a trailer until the last furlong, closed with a great burst of speed and was going much the fastest of his field at the end.

OLLYER'S COMMENS
SPORT of KINGS FORTY thousand kopeks. That Pimlico futurity over in Maryland is something worth shooting for. Twenty-four are named to try for the rich prize, but the event will not be split up in two divisions as was the case once before, big butter and egg men. Looks as though Harry Payne Whitney holds the upper hand for this rich stake. He is shooting with an arsenal that would put the Cicero gunmen to shame.

VALOROUS is the big gun, however, but MAID OF THE MIST must also be given some consideration from this end of the line. It seems as though the other youngsters will have to trim VALOROUS in order to annex the large portion of the purse. The sport starts off with a race for members cithes suicide club and the good word from the insiders is to string with HUSKY. This one has all the speed and should make the grade. BONA-PARTE is rather ordinary but may spill the beans

ARROGANT should break away from the maiden ranks in the fifth. For the sixth it looks like GAM-BLE all the way.

MINO is in great form and should capture the closing spasm.

BLUE GRANITE is the hotsy totsy sent me from the lads down Latonia way. Goes in the opening dash, and the last word was go the limit right on the old beezer.

The third is one that should be allowed to go for the end book; however, if you must play, GYM-KHANA is just as good as anything else.

ARROGANT should break away

Ready to Open Season

The St. Martin's basketball team is ready to start the court season. Practice has been held during the past three weeks, with Dan Pyne and McFarland, newcomers, showing up well. The team numbers Devlin, Zinerli, Harrington, Lawton, P. Pyne, Smith and Tew of last year, and, besides D. Pyne and McFarland, Sency and Krum, who have recently joined.

The Saints will meet Sacred Heart, of Baltimore, in their first scheduled game on November 17 in the St. Martin's hall, North Capitol and T streets. Arrangements for games may be made through W. H. Smith, of 54 Rhode Island avenue northwest.

Kelley Depends on New Players to Stop Steam-Roller.

By WALTER HAIGHT.

THE Central and Business elevens will furnish today's action in the public high school championship series which has resembled a "cave of winds" to date. The game, as usual, is scheduled for Wilson Memorial Stadium at 3:15 o'clock. For the first time since 1914,

when the Stenographers won by a 21 to 6 score, a Business high eleven is conceded a good chance to lower the colors of a Central football team. Business' slashing. driving victory over Eastern to the tune of 25 to 6 has made it the

On the other hand, Central gained much prestige by tying ained much prestige by tying Tech, after being defated by Eastern 12 to 0. Central, it is said, has never completed a high school football series without winning a game. With only the Western game to follow, such a record may be made.

Coach "Mike" Kelley is among the few who think Central will defeat Business, He is counting heavily on Stevens, a back and Rodgers, a tackle, who have just become eligible. Both are reported strong defensive players and with Capt. Blackistone playing, Kelley believes Central is going to stop the Business steam-roller.

Central will probably rely more on the forward passing game than ing player was at best only a fourth it has heretofore. Bill Simmons has demonstrated his ability as a passer and several good receivers "UMPS" TALK probably will concentrate on wearing down the Central line as was

the case in the Eastern game.

Coach Collins of Business

Howard Varsity Off

The Howard outfit was confident of victory, although they expect the hardest battle of the year from the Wilberforceans. The struggle to-day is looked upon as a clash be-tween East and West, Howard being the only undefeated eleven among the negro colleges of this section and Wilberforce the strong-est of the Western elevens.

THE HOMES IN CITY VIEW HEIGHTS ARE IDEAL EXAMPLES OF FAMILY COMFORT. Bladensburg Blvd. at L St. N.E.

AS YOU know, there are Houses and Houses-but every House ISN'T a Home. WE HAVE DESIGNED THESE CITY VIEW HEIGHTS HOMES TO BE THE MOST COMPORTABLE AND CONVENIENT THAT THOUGHTFUL PLANNING CAN MARE THEM.

CAN MAKE THEM.

There is an abundance of room, because the rooms are large and well arranged, but none of the too often waste space which is of no value and only adds to the perplexities of housekeeping. Every detail of equipment, from the hardwood foost and artistic lighting fixtures to the handsome tile baths, is indicative of the thought and quality which have been put into these Homes.

You won't have any question about renting if you will inapect these Homes, for the comforts they offer and the very moderate outlay to buy will soon convince you that renting if Expensive and unsatisfactory in comparison.

Grover Bergdoll Case

Fox the sixth time since the date of filing, on November 29, 1921, the equity division of the District of Columbia Supreme court has continued the case of Grover C. Bergdoll, draft slacker, who is seeking to recover property valued at more than \$1,000,000 which is in the hands of the alien property custodian.

The case now is set for the January term of the court, the continuance being asked for by Chester N. Farr, of Philadelphia, counsel for Bergdoll. The latter's position is unenviable, because if he returns to America to press his claim in person he is liable to seizure by the military authorities to serve a sentence on a charge of desertion. Bergdoll is in Germany.

Advocating a more serious study of the community chest plan of charities distribution, the board of managers of the Citizens Relief association, at its annual meeting in Social Service house, yesterday creation of a committee representing the various charity organizations to investigate the possibilities

preparing a bill for presentation to Congress, intended to stimulate the companies to merge. It was said the measure would be along the lines of providing penalties and rewards as inducements for unification, as suggested at the public hearing.

Discussion in the District building was to the effect that as a result of the hearing these measures of attempted coercion had lost their sting, most of them having been shown to be impracticable and the officials of the street car companies having demonstrated that they had as yet experienced no intimidation.

No sign appeared, on the part of the commissioner, told of the recommendation for thorough study of the plan.
